Reduce the Pain and Cost of Moving

Based on the statistics, you are likely to be one of the 15.3 million Americans making a residential move or affiliated with one of the hundreds of thousands of businesses making corporate moves this year. Most of these moves will take place in the next few months, between May and August. Moves, whether residential or corporate, rank as one of the top events causing stress and anxiety. Furthermore, moving can be expensive in terms of time, energy and money. Poorly preparing for your move increases both the monetary and emotional costs.

Hot tip!!

The information below is valuable even if you're not moving in the near future. Pretending you're moving and using some of our ideas for clearing out clutter improves your current living and working environment.

At Simply Placed we support residential and business clients before, during and after a move to help reduce stress and costs and to facilitate a transition that allows you to get back to normal in a new place as quickly as possible. Read on to learn more about our services as well as resources that will help you prepare for and execute relocating your home or business.

How does Simply Placed help with residential and corporate moves?

Moving: it's unsettling, time consuming, and often chaotic. And, it's inevitable that you need to find something quickly, but it's buried in a vaguely marked box filled with unrelated items. Where did I put that thing? Sound familiar?

What if instead the moving process was painless and you could find what you need, when you need it? Even better, what if it became a golden opportunity to clear out clutter and begin again in a beautifully organized home?

Our team of Professional Organizers can help with any and every step along the way to ensure a successful move:

- Pre-move organization & clutter clearing
- Packing & labeling
- Moving service coordination
- Space planning
- Unpacking & putting away
- New household systems

If you are planning an upcoming residential or business move, [contact us](#) for a free consultation – it just might be your best move yet.
